What does it mean to have a Designer for a Day?

The Designer For a Day service provides you with my expert guidance, your Interior Design Partner; it allows me to assist you with parts of the project that you may find especially overwhelming or you would like some guidance, thus helping you avoid making costly mistakes.

The 6-7 hours in person and 2-4 hours preparation time (before & after the in-person time) may include, but are not limited to:

- Property visit (if needed);
- Meeting in person to shop for: finishes (e.g., tiles, backsplash, flooring, hardware, kitchen, countertops, paint, etc.); furniture; lighting, other items as needed;
- Floor plans and layout ideas;
- Furniture ideas and sourcing of items from furniture stores;
- A moodboard to show overall design;
- Follow-up documentation with the choices;
- Any other support you may need on your project.

With my expertise and knowledge, you can feel confident knowing that you have me by your side to assist you in choosing some of the most important key elements for your design project.

What specific selections can I help you with?

I can assist you in choosing finishes for all areas of your home's interior such as your kitchen, bathrooms, main living spaces, bedrooms, entrance area, laundry room and basement. I also consult on exteriors paint, window colors, including outdoor living spaces.

More specifically, I can help you when choosing:

- Flooring options such as hardwood, tile and luxury vinyl flooring
- Wall tiles and materials for feature walls or fireplace
- Backsplash and grout recommendations
- Countertops
- Doors, windows, trim, crown molding and baseboards
- Interior and entry doors and/or patio doors
- Cabinetry finish/color/style/and hardware
- Lighting such as pendants, sconces, chandeliers and lamps
- Paint colors for walls, ceiling & trim
- Plumbing fixtures such as faucets, sinks, toilets, tubs & shower taps/controls
- All decorative elements and furniture such as sofas, chairs, bedroom furniture, ottomans, dining room sets, items for your office, window treatments, upholstery, area rugs, accessories, patio furniture, etc.

What can I accomplish during our time together?

Are we together for the full 6-7 hours?

Yes! we will spend the entire time together, sourcing from various local suppliers and retailers to make the most effective decisions during our time together. We will also have an hour of working lunch to spend discussing options, layouts, thoughts/brainstorming, or answering all your questions.

Alternatively, I will spend at least 2 hours prior to our meeting preparing a list of places to visit or vendors to speak to as each project is different and I want to ensure everything is tailored to your specific project/needs.

In addition, I will spend 2-3 hours after our in-person time to create 1-2 moodboards to see how choices fit together in addition to preparing a PDF document with all the products, names, product application and sourcing so you can share with your contractor for optimal application.

What are your terms for payment and can I hire you for more than one day if needed?

I require 100% payment up front to confirm your booking in our schedule.

While I will make the most of our time together, depending on the size of your project, your specific needs, and how swift you are at making decisions, you may wish to hire my services for additional time and that is no problem!

I can definitely book and plan for additional time which can be a consultation (1-2 hours) or by the hour if you believe you will need additional guidance here and there during the project and to ensure you feel confident in all the decisions you need to make in the renovating or decorating process.

If at the end of our day together you may feel you could benefit of additional service hours, I can share my other services which you could purchase at a discounted rate!

I am excited! How do I get started?

Next Steps:

- Schedule a discovery call to outline and confirm the scope of work for your project;
- Complete the Client Questionnaire which will help me understand better your project and the overall aesthetic you would like to achieve with the design options;
- Review and sign the project agreement to ensure you understand the process;
- Make a one time payment (prior or upon arrival at the meeting point);
- Schedule our next appointment to commence services!

Thank you & I look forward being your design partner!

Client Testimonials

I am very happy that I have reached out to Mirela for advice and store visits for my kitchen renovation. She immediately understood what I was looking for and guided me with great taste and professionalism. Thanks to her, I now feel thrilled about the next steps of my project. I warmly recommend her services

Veronica A.

I live in the US and Mirela helped me make my house in Marbella feel like a home. I trusted her with budgeting, designing, shopping, organizing and decorating.

She is very responsive, even with the extra challenge of our time difference.

I received pictures, updates and she kept me in the loop about her progress.

I recommend her services to anyone who is looking for a very personal interior designer, who will go above and beyond to make your place feel very livable.

Stephanie S.

I can't thank Mirela enough for the incredible support and creativity she brought to our home project. From the very beginning, she was attentive, insightful, and full of fantastic ideas. The moodboards created helped us clearly visualize each space, and her expert advice on paint colours, textures, and finishes truly brought everything together. Choosing the right colours and furniture felt overwhelming at first, but Mirela made the process enjoyable and inspiring. Thanks to her guidance, our home now feels warm and perfectly tailored to our style.

Highly recommend her to anyone looking for a designer with both talent and heart.

Oana F.

Hiring Mirela was the best decision I made when needing design help with my new apartment. She has amazing taste that aligned with my style and stayed within my budget. Mirela was so helpful in sourcing all the different materials and coordinating technicians, deliveries, everything. I trusted her to take care of everything- and she delivered. I love my apartment now. Give her a call, you will not be disappointed.
